

Aircraft Maintenance Reimagined

General Aviation Aircraft Ownership Series

Join FlyWise Aviation for an in-depth exploration of our aircraft ownership series. We aim to share the insights we wish we had known before buying an aircraft. Our emphasis on maintenance will demonstrate how to prioritize safety in every aircraft.

Part I: September 05 - Mx 101

Discover the evolving General Aviation maintenance scene, why opting for cheaper options isn't always the best choice, and how to secure the most suitable deal.

Part II: September 19 - My Plane

In Part II, we will delve into the concealed aspects of aircraft ownership, exploring the interaction between your STCs and other modifications, along with strategies for their upkeep.

Part III: October 03 - Management

Discover optimal techniques for overseeing aircraft maintenance status, outlining the advantages and disadvantages of various tracking approaches.

Part IV: October 17 - Let's Fly

Discover how having a knowledge base in aircraft maintenance can ensure the safety of you and your family in case of an in-flight mechanical issue.
